AJ Touré

Front-End Developer &
Creative

Hi, I'm AJ!

A former fine arts student and alumni of Juno College - I create beautiful & responsive environments and interactions.

A common assumption is that tech and nature are opposites. I think they are mirrors.

I'm excited about finding all the ways that tech can help us create a more beautiful, equitable, and accessible world!

Projects

airhead

A meditation app

[React](#), [Firebase](#), [HTML5](#), [CSS3](#)

This app prompts the user to time their meditation. Our firebase returns a quote to think on, along with an animated focal point that continues until the time runs out.

What Do You No

An educational quiz

[React](#), [Firebase](#), [SCSS](#), [HTML5](#), [CSS3](#)

This app gives the user a definition and two homophones, the user has to select the word that matches the definition. It logs the points, the time, and the highest score.

Education

2020

Juno College

Web Development & Javascript
Front End Web Development

2009 -
2013

Emily Carr University
Integrated Media

SKILLS

JAVASCRIPT
